

Kyle Shevlin

Front End JavaScript Engineer

Skills

- Strong UI engineer
- Expertise in JavaScript, React, and Redux
- Passionate about functional programming
- Creator, maintainer, and contributor to several OSS projects
- Highly skilled in custom, maintainable, scalable, and responsive front end architecture
- Excellent communicator and teacher

Also Skilled In: Node, Webpack, Sass, Ember, Ruby on Rails, d3

Education

MA in Theology (Yes, you're reading that correctly. I'm a theologian turned programmer) Fuller Theological Seminary - Pasadena, CA - 2012

BA in Philosophy & Mathematics Lenoir-Rhyne University - Hickory, NC - 2007

Work

Fastly - Portland, OR - August 2017 to Present Senior Software Engineer

- Implemented graphs in d3 that indicate a customer's usage of Fastly's Image Optimization feature
- Built new UIs for various loadbalancing features
- Migrated and converted components from main application into a NPM package consumable by all our front end applications

Second Story - Portland, OR - September 2016 to August 2017 Web and Interactive Developer

- Lead developer for Second Story's brand site, built from scratch with React, Redux, Webpack, and server side rendering.
- Lead developer for Holland America's Exploration Space, a touch table interactive built with React, Redux, Webpack, Electron, Websockets and can handle four concurrent users.

FINE - Portland, OR - November 2013 to June 2016 Front End Web Developer

- Crafted custom views and SCSS for dozens of brand sites
- Focused on custom, maintainable CSS/SCSS architecture
- Created a Ruby gem (Componentize) that allowed us to create Rails components by utilizing partials. Sped up site builds by 2-3 weeks.
- Promoted to "Full Stack". Responsible for entire project builds, all models, views, controllers, CSS and JavaScript.

- Tech Lead and/or Lead developer on several projects
- Initiated and crafted front end standards for company
- Developed and contributed to company's open source projects
- Built internal tools and processes to maximize personal and team efficiency and increase developer happiness

Noteworthy Repos

[React 101](#) Ongoing workshop teaching the fundamentals of React to beginner and intermediate level users via Twitch live stream

[Shevy](#) A typography/vertical rhythm Sass library. [Demo](#)

[ShevyJS](#) A rebuild of Shevy for JavaScript. Specifically built for CSS-in-JS systems

[Matchbox](#) A vanilla JavaScript plugin for... well... matching the height of boxes. [Demo](#)

Open Source Projects I Contribute To

- [React DevTools](#)
- [a11yproject](#)
- [Operation Code](#)
- [Emotion](#)
- [WeAreFINE / Frob Core](#)

Noteworthy Websites I Have Built

- [Second Story](#)
- [McKibbon Hotels](#)
- [Global Gourmet](#) - CommArts Award Winner
- [TA Associates](#)
- [Stag's Leap Wine Cellar](#) - CommArts Award Winner
- [Frazier Healthcare](#)
- [Eroica Wine](#)
- [Motto Wines](#)
- [Darioush](#) - CommArts Award Winner
- [Anchor Brewing](#)
